Languages & Frameworks: JavaScript, TypeScript, React, Node.js, Express, Nest.js, Python, Django, HTML, CSS
Databases & Tools: MySQL, MongoDB, Supabase, Git, GitHub, Figma, Scrum

AI AGENT PROJECTS (CLAUDE)

AI Job Search Agent | Claude Code, Claude Skills, MCP connectors 2026

- Agent that searches job boards daily, scores each posting against my profile, tailors the resume and screening answers, and fills in the application form, leaving the final submit to human review

Meta Ads Creative Generator | Claude Skills 2026

- Set of Claude skills that turn a product into ad concepts, scene-by-scene scripts and AI video prompts for animated, B-roll and UGC avatar creatives

PROFESSIONAL EXPERIENCE

Jams (Bubble.io agency), Buenos Aires, Argentina (Remote) Jul 2025 – Jul 2026
Bubble Developer

- Owned 5 Bubble apps in production for agency clients: Winebank, Demyo, Emendu, Buyer-Match and Fletech
- Built Winebank, a curated wine marketplace, from scratch: architecture, data model, admin dashboard and releases
- Integrated the Mercado Pago checkout with custom JavaScript, including split payments for multi-seller orders, after the official Bubble plugin did not meet the requirements
- Used Google Gemini with structured JSON prompts to normalize wine product photos automatically
- Cut Demyo's project listing load time from about 10 s to 2–3 s by removing unused resources and rebuilding heavy workflows; added public company profiles
- Maintained Emendu, a high-traffic app: fixed reported bugs, improved the sign-up flow and added Stripe subscription plans through the API Connector
- Took Buyer-Match, a real estate platform, from early MVP to product by rebuilding the UI from designer specs and adding a property map
- Built Fletech features that let carriers view their profile and jobs, accept them and share them via WhatsApp

Freelance, Remote Sep 2022 – Present
Full Stack & AI Agent Developer

- Design and deliver web apps, automations and AI integrations for small businesses and startups with React, Node.js, Bubble, Xano and Make, owning requirements, development, deployment and support
- Build AI agents and reusable skills with Claude Code (see AI Agent Projects)

EcomSphere USA, United States (Remote) Sep 2024 – Jun 2025
No-Code Developer

- Built the company's first talent portal from scratch with Softr and SmartSuite, connecting WordPress developers with client projects
- Automated the full recruiting pipeline in SmartSuite, from application to shortlist; about 15 professionals onboarded during my time
- Integrated AI to parse incoming resumes into structured fields (skills, experience, seniority), removing manual data entry

Senior AI, LLC, United States (Remote) Mar 2025 – Apr 2025
No-Code Developer (Part-time)

- Automated the search and loading of US senior-care providers from multiple cities into a Xano database, replacing manual entry
- Generated each provider's coverage polygon and displayed it on a map for location-based recommendations
- Built a Retell AI voice assistant that answers calls for elderly care services

Consultancy Global, Remote Dec 2024 – Apr 2025
No-Code Developer, AI Automation (Part-time)

- Built a Retell AI agent inside Make, with ChatGPT, Zoho CRM and Twilio, that answers prospects, qualifies leads and routes each one to the right expert for a legal services firm
- Built React interfaces from Figma designs for a legal management system

The Elevate, Remote Aug 2024 – Oct 2024
Bubble Developer

- Built a Udemy-style course module in Bubble where each mentor creates and publishes their own courses; improved the portal UI
- Integrated Stripe and ChatGPT to automate platform payments and messaging

The Colony, Remote Apr 2024 – Aug 2024
No-Code Developer (Training Contract)

- Built Nakeds, a second-hand clothing social marketplace in Bubble where users list items, buyers make offers and purchases close through a Clip checkout (Mexico)

EDUCATION

Universidad Nacional de Mar del Plata, Computer Engineering (in progress) Aug 2023 – Present
ITBA, Instituto Tecnológico de Buenos Aires, Full Stack Developer Program Jul 2023 – Nov 2023
Escuela de Educación Técnica N.º 5, Computer Technician 2014 – 2020
